Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

This application contains claims directed to the following patentably distinct species:

Species related to form:

- A. a continuous-wall, flexible catheter formed from a polymer (claim 2)
- B. a non-absorbable monofilament suture formed from a polymer (claim 3)
- C. a non-absorbable braided suture formed from a polymer (claim 4)
- D. a non-absorbable woven or knitted mesh formed from at least one polymer (claim 5)
- E. a non-absorbable woven or knitted vascular construct formed from at least one polymer (claim 6)
- F. absorbable monofilament and multifilament braided sutures made from a polymer comprising repeat units derived from at least one monomer (claim 7)
- G. partially absorbable composite woven or knitted mesh wherein the non-absorbable component is formed from a non-absorbable polymer (claim 8-9)
- H. a composite vascular construct comprising a blood contacting, surface modified, non-absorbable component (claim 10)
- I. knitted, woven or composite partially absorbable mesh (claim 12)
- J. surgical monofilament or braided suture (claim 13)
- K. a twisted multifilament yarn (claim 14)

L. non-absorbable monofilament or braided suture comprising at least one bioactive agent (claim 15)

The species are independent or distinct because the disclosed species each contain materially different properties and functions.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, Claims 1, 11, and 16 are generic as to form.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).
